INSTRUCTIONS TO OWNER-BUILDER

You have this date made application for a building permit as an owner-builder. You should be advised of the following provisions and requirements that apply to owner-builders:

Proof of Ownership - Prior to a building permit being issued to you, you must submit proof of ownership of the land concerned in the application in the form of a recorded deed, showing you own the property, or a copy of mortgage or warranty deed of the land, showing you are obligated to purchase the property, or a Dade County tax receipt, statement to contain legal description of property and indicate property is in your name. Legal description and name on document of proof must correspond to the name and legal description on the application.

Responsibility - You will be responsible for all work done by your day labor employees, and you must either employ licensed contractors or persons to be paid on an hourly or per diem basis. Any one contracting (including labor) with you, verbally or in writing, on a fixed fee basis for any work, who is not properly licensed, will be subject to a fine of \$500.00 and/or imprisonment for six months.

Insurance - You should be advised that if your day labor employees cause any damage to persons or property, or if any of your day labor employees are injured on the job, you are liable. Your regular home insurance policy ordinarily does not cover this type of liability.

Withholding Taxes, etc. - You should be advised to investigate your responsibility for withholding Social Security, Federal and State Unemployment Insurance Taxes and Federal Income Taxes from the wages of employees working for you on the proposed construction, and for making returns thereof to the proper agencies.

Work Permitted Owner-Builder - An owner-builder, subject to the foregoing provisions and requirements, is limited to constructing one single family or duplex residence each year for his own use and occupancy; or maintaining, altering or repairing his own single family or duplex residence; or erecting a one story building of not more than 500 square feet for commercial or industrial use, or adding a first floor addition of not more than 500 square feet to a commercial or industrial building; or maintenance or repairs and non-structural alterations, not to exceed \$5,000.00 on any building which he owns or leases.

If you do not intend to do the work involved yourself, or with day labor, please list below the name of the individual or firm with whom you have entered (or will enter) into a contract for the work.

NOTICE: SEPARATE PERMITS REQUIRED FOR ELECTRICAL, PLUMBING, ROOFING AND MECHANICAL WORK

Name of Individual or Firm: Robert Reynolds - 704 - 84th St.
Address: Miami Beach, FL 33141

I, the owner of property described as Owner of 704 - 84th St.
Miami Beach, FL 33141 do hereby certify

that I have read the foregoing instructions, and am aware of my responsibilities and liabilities under my application for a building permit for construction work on the above described property.

Re: Available Fault Current for 704 84th St

Dear Marilyn Relats:

Thank you for contacting FPL about the available fault current at **704 84th St**. Based on the plans you have provided dated 11/17/2021, the maximum available fault current at the transformer secondary terminals is estimated to be **38620 symmetrical amperes at 120/240 volts**. The protective device on the line side of the transformer currently in place or to be installed and serving your property located at the subject location is a **15-amp type KS fuse**. The primary service voltage is **13.2kV L-L**. This calculated symmetrical fault current is not intended for use as the basis for motor starting calculations and does not include:

- Consideration for any motor contribution or
- Fault current asymmetry.

The FPL equipment currently serving or planned to serve your facility may change over time as a result of any number of factors, including but not limited to transformer replacements due to load growth, electrical grid changes or emergencies. As a result, although we are providing you with this information for the sole purpose of assisting you in the completion of your study, you and your client should not design, install **or operate** your system in reliance upon any expectation that the specific size and type of equipment currently in place will remain so. If and when the size and type of the equipment changes, our employees are not always in a position to immediately notify customers.

As the construction project progresses, any questions or information you may need can be communicated through me. I have enclosed my business card for easy reference and look forward to hearing from you in the near future.

Sincerely,
Yaremnis Santos
