Kobi Karp

ARCHITECTURE INTERIOR DESIGN PLANNING

BIOGRAPHY

Kobi Karp, R.A., AIA, NCARB ***Principal-in-Charge***

Kobi Karp is the Founder and Principal of Kobi Karp Architecture and Interior Design, Inc (KKAID). Kobi Karp founded the firm in 1996 and has been the Principal-in-Charge of design since that time. KKAID is a full-service architectural and interior design firm providing a vast array of services, ranging from the design of large-scale, high-rise condominium and hospitality projects to intimate, small-scale low-rise residential and commercial structures.

Educated at the University of Minnesota's Institute of Technology, Kobi Karp earned degrees in both Architecture and Environmental Design. Subsequently, Kobi Karp began his career working on major hospitality and all-inclusive resort projects throughout the United States and the Caribbean. His restoration design techniques have contributed to a renaissance in one of this country's most cherished areas, Miami Beach's Art Deco District which is internationally recognized around the world.

Kobi Karp has developed expertise in design over the last 30 years, working with a wide range of project types, sizes, complexities, and budgets. It is through this last quarter century working in warm weather climates that KKAID has garnered international acclaim and been selected to spearhead numerous resort projects. Developers and builders in the Caribbean, Black Sea region, and the Middle East have relied on the firm for their design eye and planning.

Kobi Karp is a recognized member of the American Institute of Architects (AIA) and his firm was most recently honored as Firm of The Year for his multitude of award-winning designs and buildings. Mr. Karp is a licensed Professional Architect in 15 states and in Abu Dhabi (UAE). His firm has been featured in renowned national and local publications based on their major contributions in the preservation of historical areas.

Kobi Karp Architecture and Interior Design has collaborated with Assouline for a Kobi Karp branded book and has also been recognized in various publications including The Wall Street Journal, The New York Times, Miami Herald, Forbes Magazine, Architectural Digest, Interior Design Magazine, Robb Report, Ocean Drive Magazine, Haute Magazine, Elle Décor, El Nuevo Herald, Modern Luxury, Newsweek and Hospitality Design Magazine. Kobi Karp Architecture and Interior Design has also been featured on CBS, CNN, CNNi, FOX, Celebrity Page News, FORBES, Cheddar TV, HLN and Newsmax TV.

Adrian K. Dabkowski

Adrian K. Dabkowski, P.E., PTOE

Introduction

Adrian has 21 years of traffic/transportation engineering and transportation planning experience related to traffic impact studies, traffic operational studies, signal warrant analyses, roadway/lane closures, mechanical and robotic parking operation studies, vehicle maneuverability analysis, valet operation studies, parking studies, site circulation analysis, access management analyses, and alternative intersection development.

He earned his Master of Science in Transportation/Civil Engineering at Florida International University, Master of Business Administration at Rochester Institute of Technology, and his Bachelor of Science in Civil Engineering Technology at Rochester Institute of Technology. Adrian is a Professional Engineer (P.E.) in Florida and Louisiana, and is a Registered Professional Traffic Operations Engineer (PTOE). He is also a member of the Institute of Transportation Engineers (ITE).

Professional Credentials

- Master of Science, Civil/Transportation Engineering, Florida International University
- Master of Business Administration, Marketing, Rochester Institute of Technology
- Bachelor of Science, Civil Engineering Technology, Rochester Institute of Technology
- Professional Engineer in Florida
- Professional Engineer in Louisiana
- Registered Professional Traffic Operations Engineer

Professional Organization

- Member, Institute of Transportation Engineers (ITE)

Special Qualifications

- Adrian as 21 years of traffic/transportation engineering experience
- Proficient in AutoCAD, AutoTURN, Highway Capacity Software (HCS), Synchro, VISSIM, SIDRA, ArcMap (GIS), ART-PLAN, HIGH-PLAN, FREE-PLAN, and StreetEVAL

Relevant Experience

Faena District, Miami Beach, FL: Transportation project manager for traffic impact analysis, mechanical parking garage operations, and valet operations for mixed-use redevelopment project consisting that includes a below and above grade mechanical parking garage. The project is located east side of Collins Avenue between 32nd Street and 35th Street and on the west side of Collins Avenue between 33rd Street and 35th Street. The traffic analysis addressed the requirements of the City of Miami Beach and Florida Department of Transportation for the approval of the project's site plan and included analyses related to the queuing and operations of the mechanical parking garage and valet. Pedestrian improvements were also recommended.

BLVD at Lenox, Miami Beach, FL: Served as transportation project manager. Kimley-Horn provided traffic engineering services for the retail redevelopment located on the northeast quadrant of 5th Street and Lenox Avenue. Services provided include conceptual access design and analysis, parking garage maneuverability analysis, loading area maneuverability analysis, entry gate analysis and conceptual design, and traffic impact study preparation.

City of Miami Beach Traffic Engineering Consultant Services, Miami Beach, FL: Transportation program manager currently working with the City of Miami Beach to provide traffic engineering consulting services. Services include technical aspects of traffic impact studies and site plan reviews. Additional services include valet and rideshare operations review; vehicle, pedestrian, and bicycle circulation review; parking review, including mechanical parking; traffic calming; and loading operations are critical.

Shore Club, Miami Beach, FL: Served as transportation project manager Kimley-Horn provided traffic engineering services for the hotel and residential redevelopment located on the southeast quadrant of Collins Avenue and 20th Street. Services provided include trip generation calculations, truck operations observations, truck and loading area maneuverability analysis, and valet analysis.

1685 Washington Avenue, Miami Beach, FL: Served as transportation project manager. Kimley-Horn provided traffic engineering services for the multi-use redevelopment located on the southeast quadrant of Washington Avenue and 17th Street. Services provided include parking garage maneuverability analysis, valet analysis, and traffic impact study preparation.

One Hotel, Miami Beach, FL: Transportation project manager for traffic impact analysis and valet operations for mixed-use redevelopment project. The project is located east side of Collins Avenue between 23rd Street and 24th Street. The traffic analysis addressed the requirements of the City of Miami Beach for the approval of the project's site plan. Pedestrian improvements were also recommended.

Starwood Headquarters, Miami Beach, FL: Served as transportation project manager. Kimley-Horn provided traffic engineering services for the office redevelopment located on the east side of Liberty Avenue north of 23rd Street. Services provided include valet analysis; maneuverability analysis, and traffic impact study preparation.

Flamingo, Miami Beach, FL: Transportation project manager for traffic assessment, valet operations analysis, design of rideshare drop-off/pick-up, and pedestrian assessment for redevelopment of multifamily project consisting of 426 residential condominiums, 1,093 apartments, 299-seat restaurant, and 6,318 square feet of retail space. The project is located on the west side of Bay Road generally bounded by 14th Street and 16th Street.

Edition Hotel/Seville, Miami Beach, FL: Transportation project manager for traffic impact analysis and valet operations for mixed-use redevelopment project. The project is located east side of Collins Avenue between 29th Street and 30th Street. The traffic analysis addressed the requirements of the City of Miami Beach for the approval of the project's site plan. Pedestrian improvements were also recommended.

4000 Alton Road, Miami Beach, FL: Transportation project manager for traffic impact study for multifamily residential development located at 4000 Alton Road adjacent to the Talmudic University. The analysis included intersection capacity analysis, turn lane analysis, and mid-block crosswalk analysis.

5333 Collins Avenue, Miami Beach, FL: Transportation project manager for traffic assessment for multifamily residential redevelopment. The traffic assessment consisted of trip generation calculations, valet operations analysis, maneuverability analysis, and transportation demand management strategies.

1920 Alton Road, Miami Beach, FL: Transportation project manager for traffic impact study for mixed-use redevelopment consisting of retail, office and residential areas. The analysis included intersection capacity analysis, 95th percentile queue analysis, turn lane analysis, and maneuverability analysis.

1910 Alton Road, Miami Beach, FL: Transportation project manager for traffic assessment for mixed-use development consisting of an art gallery, office, and residential areas. The traffic assessment consisted of trip generation calculations, valet operations analysis, maneuverability analysis, and transportation demand management strategies.

Monad Terrace, Miami Beach, FL: Served as transportation project manager. Kimley-Horn provided traffic engineering services for a residential redevelopment located on the west side of West Avenue north of 13th Street, southeast quadrant of Washington Avenue and 17th Street. Services provided include trip generation calculations; valet analysis; porte-cochere, parking garage, loading area, maneuverability analysis; and sight distance analysis.

Thompson Miami Beach/Crown Hotel, Miami Beach, FL: Transportation project manager for traffic impact analysis and valet operations for mixed-use redevelopment project. The project is located east side of Collins Avenue between 40th Street and 41st Street. The traffic analysis addressed the requirements of the City of Miami Beach for the approval of the project's site plan. Pedestrian improvements were also recommended.

Collins Park Garage 2018, Miami Beach, FL: Served as transportation project manager. Kimley-Horn provided traffic engineering and landscape architecture services for the 2018 parking garage design update. Services provided include parking garage maneuverability analysis, traffic impact study preparation, entry gate analysis, traffic circulation analysis, Liberty Avenue and 23rd Street intersection configuration, and coordination with Miami-Dade County.

Collins Park Garage 2012, Miami Beach, FL: Served as transportation project manager. Kimley-Horn provided traffic engineering and landscape architecture services for the Zaha Hadid design of the Collins Park Garage. Services provided include parking garage maneuverability analysis, traffic impact study preparation, entry gate analysis, traffic circulation analysis, conceptual roundabout design, and coordination with Miami-Dade County.

The Fresh Market, Miami Beach, FL: Served as transportation project manager. Kimley-Horn provided traffic engineering, civil engineering, and landscape architecture services for the grocery development on the northwest quadrant of West Avenue and 18th Street. Traffic engineering services provided include traffic impact study preparation.

Lincoln East Parking Garage (aka 420 Lincoln Road), Miami Beach, FL: Served as transportation project engineer. Kimley-Horn provided traffic engineering and landscape architecture services for a mixed-use development at 420 Lincoln Road on the northeast corner of Drexel Avenue and 16th Street in Miami Beach. This six-story structure consists of street-level retail facilities containing 17,000 square feet and a 484-space public parking garage to serve the New World Symphony Campus and Lincoln Road Mall.

- Brickell Way High-rise, Speculative Project, Miami, Florida

Residential

- Vintage Park, California

My name is Deborah Desilets. I am an architect, designer and author specializing in Morris Lapidus's career and architecture. I lecture, write, and educate people on the principles and practice of Morris Lapidus. As his protege I arranged lectures, accompanied him at all public functions, and created his submission for the 2000 National Design Award. With this Award he received the recognition as "An American Original". As a maverick architect he was the bad boy of modern architecture. His most Famous architecture resides in Miami Beach. As the owner of the Morris Lapidus TM I have spent 20 years teaching and discussing the life works of Morris Lapidus. Exhibitions and lectures about his work as well as products.

Morris Lapidus was the associate architect on eight big hotels on Miami Beach prior to being the architect of the Fontainebleau Hotel, The Eden Roc, The Americana. Those hotels were the DiLido, Algiers, Nautilus, Sans Souci, Biltmore Terrace, Americana. He later designed iconic residential towers such as the Crystal House, Seacoast East, Arlen House, and over 21 buildings in Aventura from 1960-70 having more impact on this City than even Gaudi in Barcelona. Lincoln Road was his greatest public project for the people, a pedestrian mall.

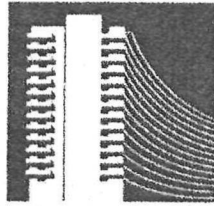

It is his critical avoidance that has created the need for the Morris Lapidus Foundation to ensure his life works are critically reviewed and understood.

VVAA INC

Ms. Deborah Desilets founded Virtual Visions Architects, Inc. in 1996 and joined Morris Lapidus, internationally renowned for his pioneering architectural designs that included the Fontainebleau Hotel, the Eden Roc Hotel, the Americana Hotel, and Lincoln Road, all in Miami Beach, Florida, as associate and personal design architect. Among the many projects completed with Mr. Lapidus through 2001 are retail stores, restaurants, nightclubs and City Center, a 150 room Hotel.

Between 1993 and 1996 she served as Marketing Director for *Arquitectonica*, in charge of proposal development and solicitations that included the Performing Arts Center for the City of Miami; Governmental Projects; Embassy Projects; Private Solicitations with Goldman Sachs, Sony, Discovery Science Center, Citicorp.; and , International Solicitations for the Dijon Performing Arts Center, Dijon, France, Yau Yat Tsuen, Hong Kong, KCR Master Plan, Kowloon Tong, Puerto Rico Eco Center, Shopping Arcade Beijing, Atlantic Gulf Properties, Nanjing, Disney Cruise Lines, Port Canaveral, Fl, Discovery Science Center, LA. As Marketing Director she managed an extensive number of proposals throughout Asia, as well as sustaining logistic support to *Arquitectonica*'s offices in Paris, San Francisco, Hong Kong and Peru. In 1988 Ms. Desilets founded the Computer Lab at *Arquitectonica*, later linking Asian Offices.

Between 1983 and 1991, Ms. Desilets served as Intern Architect with Spillis Candela and Partners INTERIORS; Modular Architecture; *Arquitectonica*; Barnett & Fronczak; WS Lee Millwork; and Clemons Rutherford and Associates in Tallahassee, Florida. She obtained her BS in Architecture from Florida Agricultural and Mechanical University in 1983.

Re: Certificate of Appropriateness Applications HPB23-0574 and HPB23-0575.

Dear Mr. Mooney:

Please be advised that the Board of Directors for the Decoplage Condominium Association, on September 8, 2023, did pass a formal resolution in support of the above referenced applications that have been filed with your department.

This resolution does in fact express the support of the Decoplage, for these projects to include the appearance of a Director to express same, on behalf of the Condominium.

Please feel free to contact the Board with any questions.

Respectfully Submitted

Raquel Levy, as Secretary
The Decoplage Condominium Association, Inc.

Re: Support for Lincoln Road Improvements and Ritz Carlton/Sagamore Residential Expansion (HPB23-574 and HPB23-575)

Dear Mayor and Commissioners:

I have a business at 1669 Collins Ave, Miami Beach. In recent years, I have witnessed the slow and steady increase of crime, homelessness, and visual blight along the eastern portion of the Lincoln Road corridor. I understand that the City is in discussions with the owners of the Ritz Carlton and Sagamore hotels for a program that will significantly improve the eastern end of Lincoln Road. I further understand that the Ritz/Sagamore has filed an application with the City to add a new residential building to the combined property and improve its entrance on Lincoln Road.

I am writing to express my full support for those efforts.

Lincoln Road East of Collins Avenue (100 block). As the major pedestrian entrance to the Beachwalk, the area of Lincoln Road east of Collins is in serious need of improvement. I understand that the City is considering changes to the road and sidewalks to enhance pedestrian safety and a more fluid passage of vehicular traffic, as well as a newly designed beach access and Beachwalk improvements. This project is long overdue. The current pedestrian access in this area is unpleasant and dangerous for tourists and residents alike. The plan prepared by the Ritz Carlton and Sagamore hotels for these improvements would decidedly improve the quality of life for local residents and pedestrians.

Ritz/Sagamore Improvements. I have reviewed the proposed renovation plan for the Ritz/Sagamore property as well as the design of the new residences proposed for the site. I believe that this proposal represents a significant positive investment in this area of the City. The proposed improvements will be compatible with the surrounding development and will bring new residents to the area.

I believe these proposed improvements will be transformative and have a positive impact on the quality of life for the residents of South Beach and the neglected city center that are long overdue. I urge you to help make this plan a reality.
