Staff Report & Recommendation

Historic Preservation Board

TO: Chairperson and Members
Historic Preservation Board

DATE: November 14, 2023

FROM: Thomas R. Mooney, AICP
Planning Director

SUBJECT: HPB23-0583, **749 Lincoln Road.**

An application has been filed requesting a Certificate of Appropriateness for the installation of an artistic graphic mural.

RECOMMENDATION

Approval of the Certificate of Appropriateness with conditions.

EXISTING STRUCTURE

Local Historic District:	Flamingo Park
Classification:	Contributing*
Construction Date:	1972
Architect:	Glasser-Sacam Associates

*The subject site, and the adjacent building to the south, were originally part of the Beaux Arts Building which was constructed in 1924 and designed by architect August Geiger. In 1971, the portion of the building located on the subject site was demolished and the existing building was constructed shortly after (in 1972). In 1992, the Flamingo Park Local Historic District was expanded to include Lincoln Road and the subject building was likely mistakenly classified as Contributing based upon the original construction date of the Beaux Arts building.

THE PROJECT

The applicant has submitted plans entitled "Salt & Straw", as prepared by Pattern People, dated July 12, 2023.

COMPLIANCE WITH ZONING CODE

The application for Certificate of Appropriateness, as submitted, appears to be inconsistent with the following requirements of the City Code:

1. Per Section 6.2.10(b) of the Land Development Regulations, the maximum aggregate size of any mural, graphic or image shall not exceed 100 square feet, unless otherwise approved by and adopted by a majority vote of the city commission by resolution.

This shall not be considered final zoning review or approval. These and all zoning matters shall require final review and verification by the Zoning Administrator prior to the issuance of a Building Permit.

CONSISTENCY WITH 2040 COMPREHENSIVE PLAN

A preliminary review of the project indicates that the commercial use is **consistent** with the Future Land Use Map of the Comprehensive Plan.

COMPLIANCE WITH SEA LEVEL RISE AND RESILIENCY REVIEW CRITERIA

Section 7.1.2.4(a)(i) of the Land Development Regulations establishes review criteria for sea level rise and resiliency that must be considered as part of the review process for board orders. The following is an analysis of the request based upon these criteria:

ANALYSIS

The subject building was constructed in 1972 and is located within the Flamingo Park Local Historic District. The applicant, the tenant of the corner commercial space, is requesting a Certificate of Appropriateness for the introduction of a painted mural along portions of the Lincoln Road and Meridian Avenue facades. The mural is a work of art by artist Nerea Arce and will contain no advertising or signage. The mural is primarily located within the clerestory windows and will help to screen large mechanical equipment located behind these existing windows. Finally, staff would note that the mural will require City Commission approval as it is over 100 square feet in size. In summary, staff has no objection to the proposed mural and recommends approval as noted below.

RECOMMENDATION

In view of the foregoing analysis, staff recommends the request for a Certificate of Appropriateness be **approved**, subject to the conditions enumerated in the attached draft Order,

which address the inconsistencies with the aforementioned Certificate of Appropriateness criteria, as applicable.

- I. Satisfaction of all conditions is required for the Planning Department to give its approval on a Certificate of Occupancy; a Temporary Certificate of Occupancy or Partial Certificate of Occupancy may also be conditionally granted Planning Departmental approval.
- J. The Final Order is not severable, and if any provision or condition hereof is held void or unconstitutional in a final decision by a court of competent jurisdiction, the order shall be returned to the Board for reconsideration as to whether the order meets the criteria for approval absent the stricken provision or condition, and/or it is appropriate to modify the remaining conditions or impose new conditions.
- K. The conditions of approval herein are binding on the applicant, the property's owners, operators, and all successors in interest and assigns.

The issuance of the approval does not relieve the applicant from obtaining all other required Municipal, County and/or State reviews and permits, including final zoning approval. If adequate handicapped access is not provided on the Board-approved plans, this approval does not mean that such handicapped access is not required. When requesting a building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions set forth in this Order.

If the Full Building Permit for the project is not issued within eighteen (18) months of the meeting date at which the original approval was granted, the application will expire and become null and void, unless the applicant makes an application to the Board for an extension of time, in accordance with the requirements and procedures of section 2.13.7 of the Land Development Regulations; the granting of any such extension of time shall be at the discretion of the Board. If the Full Building Permit for the project should expire for any reason (including but not limited to construction not commencing and continuing, with required inspections, in accordance with the applicable Building Code), the application will expire and become null and void.

In accordance with chapter 2 of the Land Development Regulations, the violation of any conditions and safeguards that are a part of this Order shall be deemed a violation of the land development regulations.
