AN ORDINANCE OF THE MAYOR AND CITY COMMISSION OF THE CITY OF MIAMI BEACH, FLORIDA, AMENDING THE CITY OF MIAMI BEACH YEAR 2040 COMPREHENSIVE PLAN, PURSUANT TO THE EXPEDITED STATE REVIEW PROCESS OF SECTION 163.3184(3), FLORIDA STATUTES, BY AMENDING THE "RESILIENT LAND USE & DEVELOPMENT ELEMENT," GOAL RLU 1, ENTITLED "LAND USE," OBJECTIVE RLU 1.1, ENTITLED "ESTABLISHMENT OF FUTURE LAND USE CATEGORIES" AT TABLE RLU 1.1 TO PROVIDE CONSISTENCY WITH FLOOR AREA RATIO (F.A.R.) - In 2024, the City Commission recognized that the City's decline in population was due, in part, to lack well-located accessibly priced housing options that can compete with modern offerings in nearby municipalities.
- The Commission adopted **Policy 1.2.8** of the Comprehensive Plan, via Ordinance 2024-4663, which **outlines criteria to qualify for voluntary zoning incentives for non-transient residential development.**
- This Policy has been implemented through residential incentives programs in certain areas such as RM-2 and RM-3 zones in Mid Beach, see e.g. 7.2.5.5. of the Code.
- Other LDR amendments proposals, sponsored by Commissioners, **specifically identified Washington Avenue and Lincoln Road as priority areas** for this housing type. **This Board recommended adoption of same on Nov. 24, 2024.**

Miami Beach's Urban Core

- Lincoln Road, Washington Avenue, and its immediate surroundings are **the cultural, commercial and office hub of the City** with a large employment base.
- This area has historically functioned as **the City's downtown.**

Miami Beach's Urban Core

- **Economic Hub** - Lincoln Road's pedestrian mall is one of the premier retail streets in the country, with **200+ businesses**. Most important **office buildings** in the City include 407 Lincoln Road and 420 Lincoln Road.
- **Cultural and Civic Hub** - Includes key institutions such as the FIU Miami Beach Urban Studios, the New World Center, the Fillmore and the Miami Beach Convention Center, with its Grand Hyatt hotel. Lincoln Road routinely activated with farmer's markets, free art installations, block parties and more.
- **Mobility Hub** – Along Washington Ave. served by both the Miami Beach Trolley and various MetroBus routes.

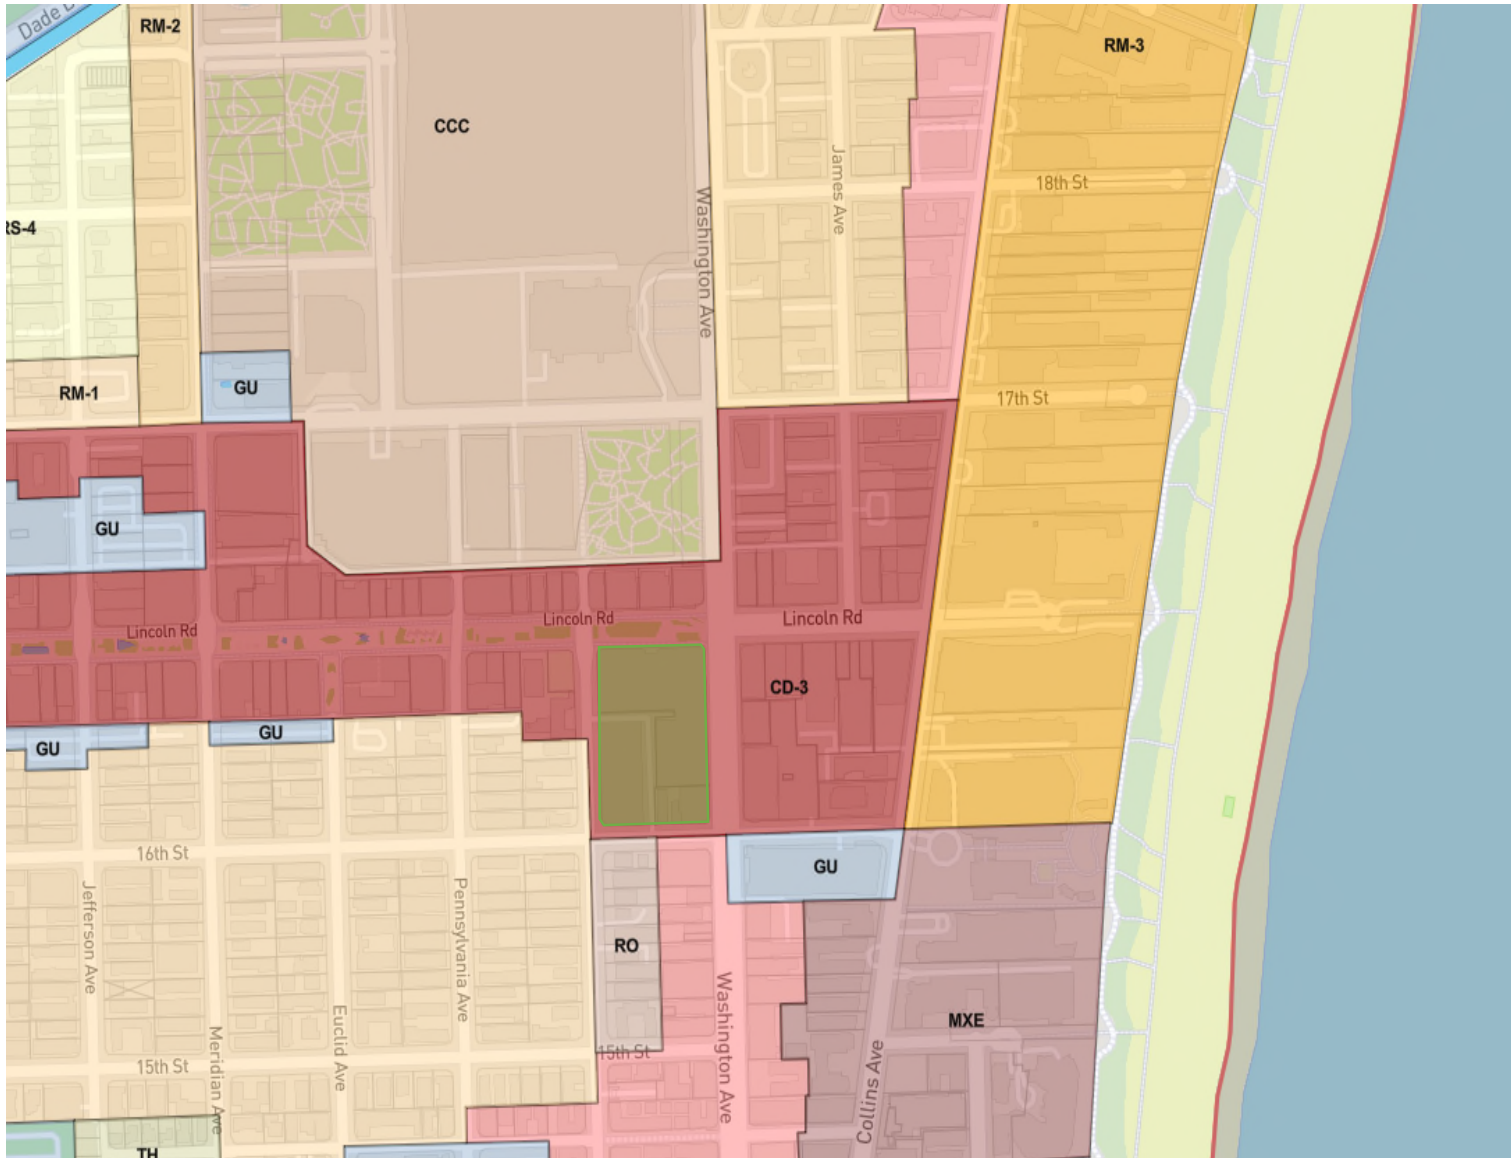

Urban Core Legislation: Scope

Urban Core Legislation: Zoning Overview

- Zoned **CD-3**, which contemplates the maximum by right density in the City of 150 du/ac.
- The block has been controlled by Ambassador Paul Cejas since the 1990s.
- Ambassador Cejas has invested substantial sums into revitalizing and preserving the historic 420 Lincoln Rd. building and has waited for the correct project to redevelop 1600 Washington Ave.

Urban Core Legislation: Reasoning

- These properties **already have highest density in the City** at 150 du/acre, but the current allowable FAR and height are too restrictive **to deliver a high-quality market rate residential product** that approaches the permissible density.
- The Urban Core legislation **proposes a modest FAR of increase of 0.50 (3.25 total) and a 50-foot increase in height (150 feet total)**. This mirrors the Washington Avenue Residential Incentives recommended for approval in Nov. 2024.
- The Urban Core legislation **directly furthers Policy 1.1.10 of the City's Comprehensive Plan by providing adequate FAR and height** to better realize the already contemplated density for CD-3 zoned properties.

- Will enable a **210-unit market rate residential project designed by** world-renowned architect **Enrique Norten**.
- Applicant to provide **covenant against transient uses** to qualify for the incentives.
- Existing tenant's grandfathered dance hall replaced with much-needed housing.
- Potential **reduction in traffic** as it is anticipated some residents will commute to work walking or via transit available on Washington Ave.
