Honorable Chair and Members of the Miami Beach Historic Preservation Board,

As a Palm View Historic District homeowner and nearby neighbor to the applying property, I am writing to oppose the applicant's continued efforts to demolish the historically-protected art deco facade of this property. This property was designated a contributing structure in the 1999 Palm View Historic District Designation Report.

I support improvement of the homes in the Palm View historic district and appreciate the property owner's intent to invest in this home, but I oppose their effort to remove the defining and protected art deco facade.

Despite clear direction from the HPB at its April meeting, the applicant has again proposed demolition and alteration of the defining elements of the protected art deco facade. I ask that the HPB deny these illegal alterations and preserve this rare art deco SFH in South Beach.

- Deny location changes: Elevating eyebrows above original location and moving gable vents
- Deny design changes: Squaring the rounded edges of the eyebrows and entrance shelves
- Deny volume changes: Extending the eyebrows
- Deny material changes: Replacing concrete with metal eyebrows
- Deny lighting changes: Addition of exterior can lighting recessed into the eyebrows

I request that the HPB require the applicant to comply with the requirements of our Historic District and require the preservation of the original art deco facade.

I request that the HPB make permitting conditional on the retention and restoration of the front façade consistent with historic documentation and City inspection for compliance before granting occupancy.

Thank you for your service to the Palm View Historic District residents and the City of Miami Beach.

Respectfully,

Christopher Gloede
