## PLANNING DEPARTMENT

### Staff Report & Recommendation

### Design Review Board

TO: DRB Chairperson and Members

DATE: July 10, 2025

FROM: Thomas R. Mooney, AICP  
Planning Director

SUBJECT: DRB25-1096, f.k.a. DRB16-0069  
**850 Commerce Street**

An application has been filed requesting modifications to an existing commercial building that previously received Design Review Approval. Specifically, the applicant is requesting Design Review Approval for the renovation of the front façade, signage and the installation of a wood clad enclosure located at the rear of the property, including one or more waivers.

#### **RECOMMENDATION:**

Approval.

#### **BACKGROUND**

On September 6, 2011, the Design Review Board approved an application for the renovation and alteration of an existing two-story building and the construction of a new two-story building with outdoor dining terrace as part of a new restaurant, pursuant to DRB File No. 22868.

On December 6, 2016, the Design Review Board approved modifications for a new glass storefront system to enclose an existing outdoor terrace, along with the deletion of the operating conditions from the original DRB File No. 22868 Final Order, pursuant to DRB16-0069.

#### **LEGAL DESCRIPTION:**

Lots 10-12, Block 51, Ocean Beach Florida Addition No. 3, according to the Plat Thereof, as recorded in Plat Book 2 at Page 81, of the Public Records of Miami-Dade County, Florida.

#### **SITE DATA:**

Zoning:	CPS-1 (Limited Mixed-Use Commercial)
Future Land Use:	CPS-1 (Limited Mixed-Use Commercial)
Lot Size:	9,000 S.F.
Approved Use:	Restaurant (210 seats)

#### **EXISTING PROPERTY:**

Year:	1925   2015
Architect:	Owner/Contractor   STA Architectural Group
Vacant:	No

#### **SURROUNDING PROPERTIES:**

East:	7-story condominium development
North:	Surface parking lot
South:	7-story condominium development
West:	One-story commercial building

### **THE PROJECT:**

The applicant has submitted plans entitled "Cactus Club Café Miami Beach", as designed by **BAI Architecture**, signed, sealed, and dated May 2, 2025.

The applicant is requesting Design Review Approval for the renovation of the front façade, signage and the installation of a wood clad enclosure located at the rear of the property, along an alley.

### **COMPLIANCE WITH ZONING CODE:**

A preliminary review of the project indicates that the application, as proposed, appears to be consistent with the City Code. The above noted comments shall not be considered final zoning review or approval. These and all zoning matters shall require final review and verification by the Zoning Administrator prior to the issuance of a Building Permit.

### **CONSISTENCY WITH COMPREHENSIVE PLAN:**

A preliminary review of the project indicates that the proposed **commercial use** appears to be **consistent** with the Future Land Use Map of the 2025 Comprehensive Plan.

### **COMPLIANCE WITH DESIGN REVIEW CRITERIA, SECTION 2.5.3.1:**

Design review encompasses the examination of architectural drawings for consistency with the criteria stated below, with regard to the aesthetics, appearance, safety, and function of any new or existing structure and physical attributes of the project in relation to the site, adjacent structures and surrounding community. The design review board and the planning department shall review plans based upon the below stated criteria, criteria listed in neighborhood plans, if applicable, and applicable design guidelines. Recommendations of the planning department may include, but not be limited to, comments from the building department and the public works department.

- a. The existing and proposed conditions of the lot, including but not necessarily limited to topography, vegetation, trees, drainage, and waterways.  
**Satisfied**
- b. The location of all existing and proposed buildings, drives, parking spaces, walkways, means of ingress and egress, drainage facilities, utility services, landscaping structures, signs, and lighting and screening devices.  
**Satisfied.**
- c. The dimensions of all buildings, structures, setbacks, parking spaces, floor area ratio, height, lot coverage and any other information that may be reasonably necessary to determine compliance with the requirements of the underlying zoning district, and any applicable overlays, for a particular application or project.  
**Satisfied.**
- d. The color, design, selection of landscape materials and architectural elements of exterior building surfaces and primary public interior areas for developments requiring a building permit in areas of the city identified in section 2.5.3.2.  
**Partially Satisfied. Staff recommends that the proposed gray paint color for the 1923 building, and any other exterior stucco details painted gray, be a light or mid-tone gray.**
- e. The proposed site plan, and the location, appearance and design of new and existing buildings and structures are in conformity with the standards of this article and other applicable ordinances, architectural and design guidelines as adopted and amended

periodically by the design review board and historic preservation board and all pertinent master plans.

**Satisfied.**

- f. The proposed structure, or additions or modifications to an existing structure, indicates a sensitivity to and is compatible with the environment and adjacent structures, and enhances the appearance of the surrounding properties.

**Satisfied.**

- g. The design and layout of the proposed site plan, as well as all new and existing buildings shall be reviewed so as to provide an efficient arrangement of land uses. Particular attention shall be given to safety, crime prevention and fire protection, relationship to the surrounding neighborhood, impact on contiguous and adjacent buildings and lands, pedestrian sight lines and view corridors.

**Satisfied.**

- h. Pedestrian and vehicular traffic movement within and adjacent to the site shall be reviewed to ensure that clearly defined, segregated pedestrian access to the site and all buildings is provided for and that all parking spaces are usable and are safety and conveniently arranged; pedestrian furniture and bike racks shall be considered. Access to the site from adjacent roads shall be designed so as to interfere as little as possible with traffic flow on these roads and to permit vehicles a rapid and safe ingress and egress to the site.

**Satisfied.**

- i. Lighting shall be reviewed to ensure safe movement of persons and vehicles and reflection on public property for security purposes and to minimize glare and reflection on adjacent properties. Lighting shall be reviewed to assure that it enhances the appearance of structures at night.

**Not Satisfied; a lighting plan has not been submitted for building permit.**

- j. Landscape and paving materials shall be reviewed to ensure an adequate relationship with and enhancement of the overall site plan design.

**Satisfied.**

- k. Buffering materials shall be reviewed to ensure that headlights of vehicles, noise, and light from structures are adequately shielded from public view, adjacent properties and pedestrian areas.

**Satisfied.**

- l. The proposed structure has an orientation and massing which is sensitive to and compatible with the building site and surrounding area and which creates or maintains important view corridor(s).

**Satisfied.**

- m. The building has, where feasible, space in that part of the ground floor fronting a street or streets which is to be occupied for residential or commercial uses; likewise, the upper floors of the pedestal portion of the proposed building fronting a street, or streets shall have residential or commercial spaces, shall have the appearance of being a residential or commercial space or shall have an architectural treatment which shall buffer the

appearance of the parking structure from the surrounding area and is integrated with the overall appearance of the project.

**Not Applicable.**

- n. The building shall have an appropriate and fully integrated rooftop architectural treatment which substantially screens all mechanical equipment, stairs and elevator towers.

**Satisfied.**

- o. An addition on a building site shall be designed, sited and massed in a manner which is sensitive to and compatible with the existing improvement(s).

**Not Applicable.**

- p. All portions of a project fronting a street or sidewalk shall incorporate an architecturally appropriate amount of transparency at the first level in order to achieve pedestrian compatibility and adequate visual interest.

**Not Applicable.**

- q. The location, design, screening and buffering of all required service bays, delivery bays, trash and refuse receptacles, as well as trash rooms shall be arranged so as to have a minimal impact on adjacent properties.

**Not Applicable.**

- r. In addition to the foregoing criteria, subsection 118-104-6(t) of the General Ordinances shall apply to the design review board's review of any proposal to place, construct, modify or maintain a wireless communications facility or other over the air radio transmission or radio reception facility in the public rights-of-way.

**Not Applicable.**

- s. The structure and site comply with the sea level rise and resiliency review criteria in chapter 7, article I, as applicable.

**Not Satisfied; see below.**

#### **COMPLIANCE WITH SEA LEVEL RISE AND RESILIENCY REVIEW CRITERIA**

Section 7.1.2.4(a)(i) of the Land Development Regulations establishes review criteria for sea level rise and resiliency that must be considered as part of the review process for board orders.

The following is an analysis of the request based upon these criteria:

1. A recycling or salvage plan for partial or total demolition shall be provided.  
**To be satisfied at time of building permit.**
2. Windows that are proposed to be replaced shall be hurricane proof impact windows.  
**Not Applicable**
3. Where feasible and appropriate, passive cooling systems, such as operable windows, shall be provided.  
**Not Applicable**

4. Resilient landscaping (salt tolerant, highly water-absorbent, native or Florida friendly plants) shall be provided, in accordance with Chapter 4 of the Land Development Regulations.  
**Satisfied**
5. The project applicant shall consider the adopted sea level rise projections in the Southeast Florida Regional Climate Action Plan, as may be revised from time-to-time by the Southeast Florida Regional Climate Change Compact. The applicant shall also specifically study the land elevation of the subject property and the elevation of surrounding properties.  
**Satisfied**
6. The ground floor, driveways, and garage ramping for new construction shall be adaptable to the raising of public rights-of-ways and adjacent land and shall provide sufficient height and space to ensure that the entry ways and exits can be modified to accommodate a higher street height of up to three (3) additional feet in height.  
**Satisfied**
7. In all new projects, all critical mechanical and electrical systems shall be located above base flood elevation. Due to flooding concerns, all redevelopment projects shall, whenever practicable, and economically reasonable, move all critical mechanical and electrical systems to a location above base flood elevation.  
**Satisfied**
8. Existing buildings shall be, where reasonably feasible and economically appropriate, elevated up to base flood elevation, plus City of Miami Beach Freeboard.  
**Not Applicable**
9. When habitable space is located below the base flood elevation plus City of Miami Beach Freeboard, wet or dry flood proofing systems will be provided in accordance with Chapter of 54 of the City Code.  
**Satisfied**
10. In all new projects, water retention systems shall be provided.  
**Not Satisfied**
11. Cool pavement materials or porous pavement materials shall be utilized.  
**Not Satisfied**
12. The project design shall minimize the potential for a project causing a heat island effect on site.  
**Satisfied**

**ANALYSIS:**  
**DESIGN REVIEW**

The applicant is proposing to renovate the front façade of an existing commercial building. The property is located at the intersection of Washington Avenue and Commerce Street in the South of Fifth neighborhood of South Beach and houses two, two-story existing buildings. The first of the two existing buildings was originally constructed in 1923 and is one of the oldest surviving structures located within the Ocean Beach neighborhood. In 2015, the original structure was

converted from residential to commercial and renovated in conjunction with the construction of a new, contemporary style two-story building on the west side of the property and attached to the back half of the west elevation of the existing structure.

The applicant is proposing design modifications and new signage to the existing buildings. Specifically, the applicant is introducing to the front and east side of the 2015 building horizontal wood-like cladding atop of the stucco walls and a new, long entrance canopy with vertical metal slat supports and a graphic underside with Barron Halland printed art. To the existing 1923 structure, the applicant proposes on the ground floor of its front elevation a new operable glass nana wall system and the closure of the windows flanking this new transparent opening. Staff recommends that the nana wall system and all operable windows not open prior to 9 AM and be closed by midnight each day and has included a condition in the attached draft order.

The overall color palette for the project will contrast gray with wood tones and yellow accents found on the canopy and patio umbrellas. The front garden wall will also be finished in wood-like planks contrasting with gray stucco walls, to match the building. New building signage consisting of large metal channel letters with face-lit white plexiglass is justified in the upper left corner of the contemporary building's frieze, above the band of windows. In addition to the façade modifications. The applicant is proposing the relocation of a side entrance to the rear with a new ADA ramp, as well as a new 7' foot high wood-like enclosure along the back alley, which will screen mechanical equipment.

Staff is supportive of the proposed modifications with the recommendation that the color palette not be dark; and as such recommends that the gray color proposed for the 1923 building, and for the project overall, be a mid-tone or light gray.

**RECOMMENDATION:**

In view of the foregoing analysis, staff recommends the application be **approved**, subject to the conditions enumerated in the attached Draft Order, which address the inconsistencies with the aforementioned Design Review and Sea Level Rise criteria, as applicable.

**DESIGN REVIEW BOARD**  
**City of Miami Beach, Florida**

MEETING DATE: July 10, 2025

PROPERTY/FOLIO: **850 Commerce Street**      **02-4203-009-2100**

FILE NO: DRB25-1096

IN RE: An application has been filed requesting modifications to an existing commercial building that previously received Design Review Approval. Specifically, the applicant is requesting Design Review Approval for the renovation of the front façade, signage and the installation of a wood clad enclosure located at the rear of the property, including one or more waivers.

LEGAL: Lots 10-12, Block 51, Ocean Beach Florida Addition No. 3, according to the Plat Thereof, as recorded in Plat Book 2 at Page 81, of the Public Records of Miami-Dade County, Florida.

APPLICANTS: Limestone Plant LLC

**ORDER**

The City of Miami Beach Design Review Board makes the following FINDINGS OF FACT, based upon the evidence, information, testimony and materials presented at the public hearing and which are part of the record for this matter:

**I. Design Review**

- A. The Board has jurisdiction pursuant to Section 2.1.3.1 of the Land Development Regulations. The property is not located within a designated local historic district and is not an individually designated historic site.
- B. Based on the plans and documents submitted with the application, testimony and information provided by the applicant, and the reasons set forth in the Planning Department Staff Report, the project as submitted is inconsistent with Design Review Criteria i and s in Section 2.5.3.1 of the Land Development Regulations.
- C. Based on the plans and documents submitted with the application, testimony and information provided by the applicant, and the reasons set forth in the Planning Department Staff Report, the project as submitted is inconsistent with Sea Level Rise Criteria 1 in Section 7.1.2.4(a)(i) of the Land Development Regulations.
- D. The project would be consistent with the criteria and requirements 2.5.3.1 and/ or Section 7.1.2.4(a)(i) if the following conditions are met:
  - 1. All of the original conditions of approval by this Board shall remain in full force and effect under the Final Order dated September 4, 2012, and March 4, 2014, pursuant to DRB File No. 22868; and Final Order dated December 6, 2016,

pursuant to DRB160069, except as modified herein:

2. Revised elevation, site plan, and floor plan drawings for modifications to the existing commercial building at 850 Commerce Street shall be submitted, at a minimum, such drawings shall incorporate the following:
  - a. The final color, material and design details of the architectural awning proposed at the main entrance, including samples, shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - b. The final color, material and design details of the wood-like cladding proposed on the elevations, including samples, shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - c. The final gray color of the 1923 existing building and all proposed gray stucco details for the project throughout, shall be of a light to mid-tone gray, including samples, shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - d. The final details of all exterior surface finishes and materials, including samples, shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - e. The final details of the proposed nana wall system on the 1923 building, and associated details, shall be provided for all of the structures on the project site, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - f. The final color, material and design details of the wood-like enclosure proposed within the rear of the property at the alley, shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - g. The final design details, dimensions material and color of all exterior handrails shall be made part of the building permit plans and shall be subject to the review and approval of staff.
  - h. The final design and details of the light sconces proposed on the garden wall, including samples, shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - i. The final design and details of the building signage, shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.

- j. Prior to the issuance of a Certificate of Occupancy, the project Architect shall verify, in writing, that the subject project has been constructed in accordance with the plans approved by the Planning Department for Building Permit.
  - k. URBAN HEAT ISLAND ORDINANCE Section 7.5.3.2(g)(iv) Driveways and parking areas that are open to the sky within any required yard shall be composed of porous pavement or shall have a high albedo surface consisting of a durable material or sealant, as defined in Section 1.2.1 of this Code, and (v) Driveways and parking areas composed of asphalt that does not have a high albedo surface, as defined in Section 1.2.1, shall be prohibited.
  - l. Prior to the issuance of a Certificate of Occupancy, the project Architect shall verify, in writing, that the subject project has been constructed in accordance with the plans approved by the Planning Department for Building Permit.
3. A revised landscape plan shall be prepared by and bear the seal of a Landscape Architect licensed to practice in the State of Florida. The corresponding landscape plans shall be submitted to and approved by staff. At a minimum, landscape plans shall comply with Chapter 46 Tree Preservation and Protection Ordinance of the City Code and Chapter 4, Landscape Requirements of the Land Development Regulations and shall incorporate the following:
- a. Any existing canopy shade tree(s) on site with a caliper size of 4” of greater being impacted by the construction shall be carefully root pruned, protected and/or relocated. This shall not apply to prohibited tree species. A Tree Disposition Plan shall be provided for Planning staff review and approval prior to the issuance of a Building Permit.
  - b. Prior to the issuance of a building permit, the applicant shall submit a tree survey and tree disposition plan that includes the approved tree protection fencing detail for existing mature trees and palms to remain. Such plans shall be subject to the review and approval of staff. A tree work permit shall be obtained prior to the removal of any existing trees and palms.
  - c. In new construction projects, street trees are required within the public right of way. Street trees are in addition to the required lot trees according to the Chapter 2 Landscape Ordinance. All proposed street tree plantings shall be reviewed and approved by the Public Works Department and a right of way permit shall be obtained prior to any plantings in the right of way.
  - d. Suspended paver systems such as Silva Cells or equal shall be installed where street trees are planted in right of way sidewalk and other hardscape areas in a manner to be reviewed and approved by staff. Suspended paver systems shall be clearly delineated in the landscape plans. Structural soils may be considered where proposed trees are located immediately adjacent to large open space areas.

- e. Root guards or barriers shall be installed to protect utilities and structures within close proximity of proposed tree plantings. The root guards shall be clearly delineated in the landscape plans and shall be reviewed and approved by staff.
- f. Irrigation systems shall be designed and installed corresponding to the water requirements of the proposed plantings and as required in the Chapter 2 Landscape Ordinance. The irrigation system shall be extended into the public right of way. A rain shut off device is required to be installed as part of the irrigation system.
- g. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all backflow preventors and all other related devices and fixtures. The location of backflow preventors, Siamese pipes or other related devices and fixtures, if any, and how they are screened with landscape material from the right-of-way, shall be clearly indicated on the site and landscape plans, and shall be subject to the review and approval of staff.
- h. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all applicable FPL transformers or vault rooms. The location of any exterior transformers and how they are screened with landscape material from the right of wall shall be clearly indicated on the site and landscape plans and shall be subject to the review and approval of staff.
- i. Prior to the issuance of a Certificate of Occupancy, the Project Landscape Architect shall verify in writing that the project is consistent with the site and landscape plans approved by the Planning Department for Building Permit.

**In accordance with section 2.2.4.8 of the Land Development Regulations, the applicant, the City Manager, Miami Design Preservation League, Dade Heritage Trust, or an affected person may appeal a decision of the design review board for design review approval only to the city commission, except that orders granting or denying a request for rehearing shall not be reviewed by the commission.**

## **II. Variance(s)**

- A. No variance(s) were filed as part of this application.

**The decision of the Board regarding variances shall be final and there shall be no further review thereof except by resort to a court of competent jurisdiction by petition for writ of certiorari.**

## **III. General Terms and Conditions applying to both 'I. Design Review Approval and 'II. Variances' noted above.**

- A. The nana wall system and all operable windows shall not open prior to 9 AM and shall be closed by midnight each day.

- B. Upon the issuance of a final Certificate of Occupancy or Certificate of Completion, as applicable, the project approved herein shall be maintained in accordance with the plans approved by the board and shall be subject to all conditions of approval herein, unless otherwise modified by the Board. Failure to maintain shall result in the issuance of a Code Compliance citation, and continued failure to comply may result in revocation of the Certificate of Occupancy, Completion and Business Tax Receipt.
- C. All allowable construction signage shall be in accordance with Section 6.3.2 of the Land Development Regulations.
- D. The building and parking departments shall approve a construction parking plan prior to the issuance of any building permit, including applicable demolition permits for the project.
- E. The applicant shall ensure that the contractor(s) observe good construction practices and prevent construction materials and debris from impacting the right-of-way.
- F. The contractor(s) shall ensure that the street and the alley directly abutting the construction site remains free of debris and refuse at all times; at a minimum, the contractor(s) shall inspect and clear the street and alley areas before leaving at the end of each day.
- G. This order shall be enforced by the Building, Planning, Parking and Code Compliance Departments.
- H. A recycling/salvage plan shall be provided as part of the submittal for a demolition/building permit, in a manner to be reviewed and approved by staff.
- I. A copy of all pages of the recorded Final Order shall be scanned into the plans submitted for building permit and shall be located immediately after the front cover page of the permit plans.
- J. The Final Order shall be recorded in the Public Records of Miami-Dade County, prior to the issuance of a Building Permit.
- K. Satisfaction of all conditions is required for the Planning Department to give its approval on a Certificate of Occupancy; a Temporary Certificate of Occupancy or Partial Certificate of Occupancy may also be conditionally granted Planning Departmental approval.
- L. The Final Order is not severable, and if any provision or condition hereof is held void or unconstitutional in a final decision by a court of competent jurisdiction, the order shall be returned to the Board for reconsideration as to whether the order meets the criteria for approval absent the stricken provision or condition, and/or it is appropriate to modify the remaining conditions or impose new conditions.
- M. The conditions of approval herein are binding on the applicant, the property's owners, operators, and all successors in interest and assigns.
- N. Nothing in this order authorizes a violation of the City Code or other applicable law, nor allows a relaxation of any requirement or standard set forth in the City Code.

IT IS HEREBY ORDERED, based upon the foregoing findings of fact, the evidence, information testimony and materials presented at the public hearing, which are part of the record for this matter, and the staff report and analysis, which are adopted herein, including the staff recommendations, which were amended and adopted by the Board, that the **application** is GRANTED for the above-referenced project subject to those certain conditions specified in Paragraph I, II, III of the Finding of Fact, to which the applicant has agreed.

PROVIDED, the applicant shall build substantially in accordance with the revised plans, entitled "Cactus Club Café Miami Beach", as designed by **BAI Architecture**, signed, sealed, and dated May 2, 2025, and as approved by the Design Review Board, as determined by staff.

When requesting a building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions of approval that must be satisfied prior to permit issuance, as set forth in this Order, have been met.

The issuance of the approval does not relieve the applicant from obtaining all other required Municipal, County and/or State reviews and permits, including final zoning approval. If adequate handicapped access is not provided on the Board approved plans, this approval does not mean that such handicapped access is not required. When requesting Building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions set forth in this Order.

If the Full Building Permit for the project is not issued within eighteen (18) months of the meeting date at which the original approval was granted, the application will expire and become null and void, unless the applicant makes an application to the Board for an extension of time, in accordance with the requirements and procedures of Section 2.2.4.6 of the Land Development Regulations; the granting of any such extension of time shall be at the discretion of the Board. If the Full Building Permit for the project shall expire for any reason (including but not limited to construction not commencing and continuing, with required inspections, in accordance with the applicable Building Code), the application will expire and become null and void.

In accordance with Chapter 2 of the Land Development Regulations, the violation of any conditions and safeguards that are a part of this Order shall be deemed a violation of the land development regulations of the City Code. Failure to comply with this **Order** shall subject the application to Chapter 2 of the Land Development Regulations, for revocation or modification of the application.
