BRR2529128	PRR-2025-7985 Hello, My name is Gabriella Esposito, and I am a graduate student in the Interior Architecture program at Florida International University. My team and I are currently working on our thesis project, and we are in the programming class of our thesis research course. As part of this course, we are required to select a building and gather detailed information to support the development of our project. The Bass Museum is a wonderful choice for our project. We are hoping to request access to floor plans, CAD drawings or any relevant information for this project. Please let me know if this would be possible, or if there is a preferred process for making this request. Thank you very much.	2100 COLLINS AVE	0232260010370	Closed	9/17/2025		Building – Records Requests	Records Requests	0	0.00

FAP0725-0672	Greetings, My name is Jason aka Jay Mompre. I'm an upcoming artist from Miami. I'm looking to shoot a video at the park on July 24, 2025. It's nothing sexual or provocative, just two people on a date at the park and the beach. We'll have a couple scenes where we'll be sitting on a bench, riding a bike, walking at the park, drinking a smoothie and at the very end there will be two dancers joining me to serenade the girl that I'm with. We won't be there for too long, probably for about 2 - 3 hours, maximum 4 hours. Below is my Youtube Channel, where you can see some of the work that I've done: https://www.youtube.com/@JayMompre/videos	2100 COLLINS AVE	9432953268ROW	Issued	7/11/2025	7/17/2025	Film and Print	New Request	0	0.00

NB2024-0011	Dear Team, I hope this email finds you well. My name is Grace Yao, and I am leading a research project focusing on using AI to make art more accessible and engaging for all. During Art Week, we are planning to conduct a research study that explores how AI can enhance attendees' ability to navigate art events, deepen their appreciation of art, and create meaningful connections with the art community. To support visitors, we will also offer free art maps to help them discover and enjoy various events during the week. Our proposed setup would require a small, quiet space (16x10 ft) with a foam board, a table for postcards, and a mascot to engage with attendees. This is a noise-free event designed to foster curiosity and dialogue around art through AI, ensuring minimal disruption to the surrounding environment. We have identified several park options in our permit application but only need one location, as a contingency in case of unavailability.	2100 COLLINS AVE	0232340070060	Applied	11/16/2024		Rue Vendome	Rue Vendome		0	0.00

SPE1122-1169	The Chronicles of Miami is the latest iteration of French artist JR's ambitious Chronicles project. Inspired by Mexican muralist Diego Rivera, this series imagines how a whole city can be represented through art. Since starting Chronicles in 2016, JR has brought the project to the Parisian suburb Clichy-Montfermeil, San Francisco, New York City, and Cuba, photographing hundreds of residents in each place. His 2018 mural titled The Gun Chronicles was the cover of TIME Magazine and surveyed the complex spectrum of views on firearms in the U.S. The Chronicles of Miami will explore the unique character of the city. For The Chronicles of Miami, JR and his roaming studio are visiting different neighborhoods that make up the city's fabric. Anyone who passes by is invited to be photographed inside a 53' trailer truck. Participants choose how they want to express themselves in their portrait. They are then invited to enter a recording booth, where they can share a story or their thoughts.	2100 COLLINS AVE	0232260010370	Void	11/2/2022		Special Events	SEP-up to four consecutive days	0	0.00
