INTRODUCTION

The Miami Beach Historic Preservation Board (HPB) is being asked to approve an application for a Certificate of Appropriateness for proposed work at 1509 and 1515 Washington Avenue, Miami Beach. These buildings are part of a unified development site with the Haddon Hall Properties, located at 1500 Collins Avenue and 1453-55 Washington Avenue. All the buildings are contributing resources in either the locally-designated Flamingo Park Historic District or the locally-designated Ocean Drive / Collins Avenue Historic District. Therefore, the project will require a Certificate of Appropriateness from the HPB. The properties are also contributing resources in the National Register-listed Miami Beach Architectural (Art Deco) District.

Heritage Architectural Associates (HAA) was previously commissioned by 1515 Washington Acquisition LLC, c/o Keyah Group, (the Client), to provide an Historic Resources Report for 1509 and 1515 Washington Avenue. A Plan Corrections Report issued by the Historic Preservation Office requested an Historic Resources Report for the Haddon Hall Properties, because they are part of the combined development site.

To prepare the report, HAA obtained information from the City of Miami Beach and Miami-Dade County. HAA conducted further research with sources that included newspapers and on-line resources. Additionally, on-site photography was conducted to document the buildings and their environs as they currently exist. This information has been compiled in the report, which includes a brief history and current description of the properties.

This work was overseen by Steven G. Avdakov, R.A., principal of HAA. The report was written and compiled by Deborah Griffin of HAA. Unless otherwise specified, all photographs were taken by Steven Avdakov of HAA.

HISTORY OF THE HADDON HALL PROPERTIES

Neighborhood Context

For details on the neighborhood development up to 1940, please refer to the Historic Resources Report for 1509 1515 Washington Avenue. The Campton Apartment Hotel was constructed in 1940, and the Haddon Hall Hotel was constructed in 1941. Both appear on the 1947 Sanborn map. (Figure 3) The swimming pool and cabana building do not appear on the 1947 or the 1951 Sanborn maps. The properties at 1500 Collins Avenue and 1453-55 Washington Avenue were originally two separate properties that were developed by separate individuals.

Figure 3. Sanborn map showing Haddon Hall Properties, 1947.
(Library of Congress)

Haddon Hall Hotel – 1500 Collins Avenue

The former Haddon Hall Hotel (Figure 4) is located at 1500 Collins Avenue, on Lots 1 and 2 of Block 76 and part of the closed street between Blocks 57 and 76 in Fisher's First Subdivision of Alton Beach.

A permit to construct a three-story hotel with 115 rooms was issued to Conruth Realty Corp. on February 7, 1941. The architect was L. Murray Dixon, and the engineer was R. A. Belsham. The general contractor was Pollock Construction Company. The three-story building was constructed of concrete block (not fireproof) covered with stucco and had a spread footing foundation. It had an irregular "U"-shaped footprint with a 157'-8" frontage on Collins Avenue.

*Figure 4. Postcard of Haddon Hall Hotel, c. 1955.
(Miami-Dade Property Appraiser)*

The U.S. Army Technical Training Command took over the hotel in May 1942. It was returned to the owner on July 6, 1944, and a permit for hotel renovations was issued the next day. A 70'x28' swimming pool was permitted in October 1952, and terraces, fencing and miscellaneous one-story buildings associated with the pool were also added in 1952-53. Other than maintenance, it appears that very little modification has been made to the exterior. The interior of the hotel has experienced some reconfiguration and remodeling.

Campton Apartment Hotel – 1453-55 Washington Avenue

The former Campton Apartment Hotel, at 1453-55 Washington Avenue, is located on Lots 3, 4, and 5 of Block 76 in Fisher's First Subdivision of Alton Beach.

A permit to construct a two-story apartment hotel, with 16 apartments and 24 hotel rooms, was issued to Koff Properties, Inc. on April 15, 1940. The architect was Henry Hohausser, and the general contractor was William B. Smith and Son. The building was constructed of concrete block and had a spread footing foundation. It was "U" shaped in plan, with two long wings extending west from a narrow, connecting block. It had a frontage of 90' along Washington Avenue.

The building was requisitioned by the Army on May 4, 1942, and it was returned to the owner on August 30, 1943. It appears that there were no additions to the building since construction. In 1964, the original steel casement windows were replaced with jalousie windows.

THE ARCHITECTS

“The principal architects of Deco South Beach, Henry Hohauser and L. Murray Dixon, shared with their peers a design palette featuring streamlined curves, jutting towers, window "eyebrows," and neon. Smaller, cheaper to build, and less ostentatious than edifices like Carl Fisher's Flamingo, the South Beach Deco buildings seemed perfectly suited to a city created for sun, sand, and relaxation.”¹

L. Murray Dixon

Lawrence Murray Dixon was born February 16, 1901 in Live Oak, Florida. He attended Georgia Tech for two years but did not graduate. In the early 1920s, he began working in Miami, but in 1923, he moved to New York City and began working for Schultz & Weaver. He left the firm and moved back to Miami in 1929. In 1931, Dixon became a licensed architect in Florida and opened his own practice in Miami. Two years later, he moved his office to Miami Beach. He designed primarily in the Art Deco and Streamline Moderne styles. His most prolific period in South Florida was in the 1930s and early 1940s. He served as an architect for the U.S. Army during World War II. Dixon contributed to the design of the Miami beach Auditorium, although he did not live to see its completion. He died suddenly in New York in 1949, at the age of 48.

Selected Works:

- Tides Hotel (1936), 1220 Ocean Drive
- Beach Plaza Hotel (1936), 1403 Collins Avenue
- Atlantis Hotel (1936), 2600 block of Collins Avenue (Figure 5)

Henry Hohauser

Henry Hohauser was born in New York City in 1895. He studied at the Pratt Institute in Brooklyn but did not graduate. His World War I draft registration card indicates that, in 1917, he was an architectural draftsman with the Colonial Construction Co., Bridgeport Connecticut. He served in the U.S. Army as an architect during World War I. After the war, he practiced architecture in New York until 1932, when he moved to South Florida. Most of his designs prior to World War II were in the Art Deco and Streamline Moderne styles, but he transitioned to post-war modern designs in the late 1940s. He moved to New York state in 1962 and died there in 1963.

Selected Works:

- Colony Hotel (1935), 736 Ocean Drive
- Edison Hotel (1935), 960 Ocean Drive (Figure 11)
- Parc Vendome Apartments (1936), 736 13th Street
- Collins Plaza Hotel (1936), 318 20th Street
- Hotel Webster (1936), 1220 Collins Avenue
- Dempsey-Vanderbilt Hotel (1936), 2009 Collins Avenue
- Collins Park Hotel (1936), 2000 Park Avenue (Figure 12)
- Hotel Taft (1936), 1040 Washington Avenue
- Park Central Hotel (1937), 640 Ocean Drive
- Essex House (1938). 1001 Collins Avenue (Figure 13)
- Crescent Hotel (1938). 1420, Ocean Drive
- Commodore Hotel (1939), 1360, Collins Avenue
- Greystone Hotel (1939), 1920, Collins Avenue
- Cardozo Hotel (1939), 1300, Ocean Drive (Figure 14)
- Hoffman's Cafeteria/Warsaw Ballroom (1940), 1450 Collins Avenue
- New Yorker Hotel (1940), 1611 Collins Avenue (Figure 15)
- Hotel Davis (1941), 1020 Washington Avenue
- Sherry Frontenac Hotel (1947), 6565 Collins Avenue (Figure 16)
- Algiers Hotel (1952), 2555 Collins Avenue
- Miami Beach Municipal Auditorium (1952)

ARCHITECTURAL DESCRIPTION

The Haddon Hall Properties are located on Miami-Dade County Tax Parcel 02-3234-019-1190, which is located on the east side of Washington Avenue and the west side of Collins Avenue between 15th and 16th Streets. (Figure 17) The properties are approximately two blocks south of Lincoln Road.

Figure 17. Tax parcel map showing property line of the Haddon Hall Properties (Miami-Dade County Property Appraiser)

Site

The site is an irregularly-shaped 60,445 square foot lot located between the east side of Washington Avenue and the west side of Collins Avenue. The lot is partially situated in the closed portion of 15th Street between Washington and Collins Avenues. (Figure 17) Immediately to the north of the west side of the property is a commercial building at 1509 Washington Avenue, and immediately to the north of the east side of the property is a hotel at 1506 Collins Avenue. To the immediate south of the west side of the property is the former Cameo Theater at 1443-1445 Washington Avenue, and the former Hoffman Cafeteria, at 1455 Collins Avenue, is located immediately to the south of the east side of the property.

The U-shaped former Campton Apartment Hotel features a large setback from the pedestrian sidewalk at Washington Avenue. The building is fronted by a patio surrounded by deep planting beds. (Figure 18, Figure 19) A feature of the patio construction is a metal grid covered with glass or plexiglass panels with white pebbles situated within each opening of the grid. Metal fencing

situated on an oolite base lines the property at Washington Avenue. (Figure 20) A metal gate at the rear of the patio opens to the narrow courtyard between the two wings of the building. (Figure 21) The courtyard is paved with oolite and is heavily landscaped.

Figure 18. Detail of patio, September 2023.

Figure 19. Detail of planting beds, September 2023.

Figure 20. Detail of metal fence at Washington Avenue, September 2023.

Figure 21. Detail of metal gate at rear of patio, September 2023.

The former Haddon House Hotel is situated on the east side of the property and faces Collins Avenue. It has an irregular U-shaped plan with a small setback from the pedestrian sidewalk. A patio paved with oolite is situated between the wings of the U. (Figure 22) The patio is lined with stucco-covered concrete piers and fences (Figure 23), and a circular fountain is located at the center. (Figure 22) An accessible ramp is located at the south end of the patio.

Figure 22. View of patio between wings of Haddon Hall, looking west, September 2023.

Figure 23. Detail of concrete fence at patio, September 2023.

A rectangular pool was constructed in 1952 for the Haddon Hall Hotel. (Figure 24) It is surrounded by oolite deck. A spa is situated at the north end of the pool. The pool deck is surrounded by lush landscaping.

The cabana is a 3-story building that is located to the south of the pool. It was constructed in 1975 with an addition in 2015 and does not contribute to the historic character of the site.

Figure 24. View of pool, looking northwest, September 2023.

1500 Collins Avenue

The former Haddon Hall Hotel, at 1500 Collins Avenue, is a U shaped Streamline Moderne building. (Figure 25) It is constructed of concrete block covered with stucco and has a spread footing foundation.

Figure 25. View of 1500 Collins Avenue, looking west, September 2023.

Figure 26. Detail of rounded corner, September 2023.

Figure 27. View of central bay, September 2023.

Significant details at the front (east) façade include rounded corners with continuous eyebrows over the windows (Figure 26), projecting bay at the central section (Figure 27), breeze block (Figure 28) and terrazzo at the entrance. (Figure 29) The other elevations are not readily visible due to the proximity of neighboring structures.

Figure 28. Detail of breeze block, September 2023.

Figure 29. Detail of terrazzo flooring, September 2023.

The lobby features patterned terrazzo flooring (Figure 30, Figure 31), a floating ceiling (Figure 32), decorative molding at the cornice (Figure 32), and a rounded marble-clad reception desk. (Figure 33)

Figure 30. View of Lobby, looking east, September 2023.

Figure 31. Detail of terrazzo flooring, September 2023.

Figure 32. Detail of floating ceiling and cornice, September 2023.

Figure 33. Detail of marble-clad reception desk, September 2023.

1453-55 Washington Avenue

The former Campton Apartment Hotel, at 1453-55 Washington Avenue, is a two-story U shaped Streamline Moderne building. It is constructed of concrete block covered with stucco and has a spread footing foundation. (Figure 34) The wings of the “U” extend from a connecting block located at the east. (Figure 35) A narrow landscaped courtyard is situated between the two wings. (Figure 35)

Figure 34. View of 1453-55 Washington Avenue, looking east, August 2023.

Figure 35. Detail of block connecting two wings of the "U", September 2023.

Figure 36. View of courtyard between wings, September 2023.

Significant features at the front (west) façade include rounded corners (Figure 37, Figure 38), eyebrows (Figure 39), chevron motifs and medallions (Figure 40) The other elevations are not readily visible due to the proximity of neighboring structures.

Figure 37. Detail of rounded corner and eyebrow, September 2023.
