Dear Mr. Mooney,

I totally agree with your assessment that this provision should not be approved by the Planning Board.

It has been our experience that allowing an "anything goes" when it comes to exterior colors of buildings is a slippery slope. The process that we have now is simple, economical and it assures that we keep uniformity and harmony in our City, preserving our historical character where applicable and adding elegance to neighborhoods. Let us not become a tropical Caribbean village with gaudy colors. This is my personal opinion and I am not representing any group or association.

Please pass this to the members of the Planning Board. Thank you.
